CLIENTS & DELIVERY PARTNERS

Connecting clients with regional capability

OUR DELIVERY NETWORK

We integrate trusted local, regional and specialist partners into a single coordinated delivery model, giving clients access to the capability they need without the complexity of managing multiple interfaces.

Omnium actively seeks opportunities to engage Indigenous-owned businesses as delivery partners, supporting meaningful local participation and helping build enduring regional capability.

OUR CLIENTS

- Government agencies and departments
- Critical infrastructure owners and operators
- Utilities and essential service providers
- Defence and national security organisations
- Commercial and private sector partners
- Regional and remote asset owners

WHAT SETS US APART

Local presence. Proven leadership.
Complex environments.

LOCALLY INVESTED

Long-term Central Australian leadership with established community, industry and supply chain relationships.

INTEGRATED DELIVERY

Integrated oversight and seamless coordination across planning, design, delivery and operational transition.

PROVEN AT SCALE

Leadership experience across major infrastructure portfolios and multidisciplinary technical delivery environments.

SECURE ENVIRONMENTS

Experience supporting critical infrastructure and protective security solutions in highly controlled environments

REMOTE DELIVERY SPECIALISTS

Built around the practical realities of complex and logistically constrained environments.

STRATEGIC ALIGNMENT

Connecting corporate direction and customer requirements with effective regional execution.

ASSURANCE & EXPERIENCE

Trusted and reliable solutions

LEADERSHIP CREDENTIALS

- Led teams in the management of critical infrastructure project portfolio in excess of \$250 million.
- Recapitalization planning and lifecycle and configuration management of critical assets for \$1Bn construction and O&M program.
- Management of critical infrastructure maintenance and recapitalisation projects in excess of \$20 million.
- Proven success in communication and integration across all levels of government and organisational structures.
